Pollution of the Interior Department by Ex Secretary Teller-His Crookedness Expend

Commissioner of Indian Affairs, Atkins, after, a thorough examination into the Crow Creek Reservation troubles, has decided that the tract in whites, is null and void.

This order was one of Teller's last acts and it is said to have been done in the interest of certain Dakota land speculators. The civilized Winnebaprotests of the peaceable Winneba-Department will recommend to the President that Teller's order be revoked, and justice in this case promises to be speedy.

Another alleged outrage on Indians, of the Interior. Teller withdrew patents for farms in Washington Territory which had been issued to 168 Tacoma Indians, heads of families. Teller was influenced to do this by ex-Senator Mitchell. The latter was acting as agent for the Northern Pacific Railroad, which corporation was desirious of securing these lands. Senator Dawes was instrumental in defeating this fraudulent scheme, and in response to his protest the Interior Department has ordered that patents dians.

We are fortunate in being rid of Teller. His administration of the Interior Department was not in the interest of the Indians nor the white residents of the Western States and and speculations.

It would | Belt. be a crime to dispatch our brave tars without all the latest niceties of latter civilized warfare.

Ir is known that for some time past Mr. John Kelly, the great Tammany sachem, has been in bad health. He made a trip to Florida, and returned somewhat improved, but not entirely restored. His condition now is such that he does not care to be in active life, and he gives out, as did Mr. Conkling, that he is forever done with politics. If this resolution is edhered to by Mr. Kelly, Tammany will miss the active brain and potent President, John J.
